Compact and durable A4 Multi-function Printers for daily use

RICOH SP 3600SF/ SP 3610SF offer everything you need for cost-effective black-and-white printing, copying, scanning and faxing. With an attractive purchase price and low Total Cost of Ownership, these multifunctional devices are a sensible long-term investment. To optimize your office productivity, Ricoh's new controller offers outstanding speeds and performance. In addition, these devices fit easily on a desktop for quick operation and easy maintenance thanks to their small footprint and full front access. In short, RICOH SP 3600SF/ SP 3610SF will increase your productivity, day in, day out, in an environmentally responsible manner.

- Low Total Cost of Ownership.
- Space saving.
- Create high quality documents with 1,200 dpi printing.
- Easy operation and maintenance.
- Minimize environmental impact.

High productivity; low environmental impact

Highly productive

Equipped with the latest Ricoh controller, the RICOH SP 3600SF/ SP 3610SF offer high performance as well as fit-for-purpose functionality. Your first printout is ready in just 6.5 seconds, after which these devices speed along at 30 pages per minute. The single pass duplex scanner (RICOH SP 3610SF) ensures further productivity. Print resolution on the other hand is a high 1,200 x 1,200 dpi. To top it off, both devices are suitable for a duty cycle of 50,000 prints while @Remote is included as standard and WiFi connectivity is optional.

Low Total Cost of Ownership

With a competitive price and low Total Electricity Consumption, the SP 3600SF/SP 3610SF are attractive purchases for small- to medium-sized offices. The PxP toner fuses at a lower temperature than normal, reducing energy costs. Toner consumption can be limited by using the 'toner save' feature. Running costs are driven down further thanks to the separate PCDU and toner. This means you can change them independently, instead of having to replace the complete all-in-one cartridge.

Compact and easy to operate

Thanks to their small footprint, the SP 3600SF/ SP 3610SF easily fit on any office desktop. Full front access is guaranteed for trouble-free maintenance. These devices are also a delight to use thanks to the 4-line LCD panel and short recovery from sleep: ready for action in no time!

Environmentally friendly

The Ricoh philosophy is to provide optimal performance with the lowest environmental impact. With RICOH SP 3600SF/SP 3610SF's ultra-sleep and ECO modes energy consumption and CO_2 emissions are reduced to a minimum. During the design phase, recycled and bio-plastic components are used wherever possible. In addition, power consumption during operation is lowest in class and the use of toner and paper is efficiently managed to save resources.
